

**SPECIALISTS IN FORMWORK  
SUPPLY**

# F1, F2, F3 Finishes

## **DANIRO FORMWORK**

Experts in the supply of formwork.

We supply various  
contractors across a diverse  
field of development projects.

All our projects are designed by qualified  
draughtsman and can be approved by our  
external Engineer.

We specialise in:

- Decking
- Columns
- Staircases
- Walls
- Lift shafts

Raft foundation and Reinforcing  
Access scaffolding and back propping.  
Concrete placing can also be included.

# Decking

Concrete Formwork for In-Situ concrete. Different formwork systems can be used for different concrete finish requirements. F1, F2 and F3 Finishes.

# Columns

Concrete Formwork for In-Situ casted columns. Rough and smooth formwork columns can be casted with or without corner fillets as per architectural requirements.

All sizes of lift shafts can be done with out wide range of different panel systems. Taylor made designs can be done as per architectural requirements or production requirements.

## Lift shafts

## Raft foundations and reinforcing

In-Situ casted raft foundations is one of our specialities.
